About me

Self-taught Software Developer with a background in architecture and retail. Currently training at CodeYourFuture with hands-on experience building 4+ full-stack apps using JavaScript, Node.js, and REST APIs. Passionate about accessibility and writing clean, tested code. And I'm actively expanding into AWS and backend engineering.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, Python

Frontend: DOM manipulation, responsive UI, accessibility (Lighthouse 100)

Backend: Node.js, Express, REST APIs

Databases: MongoDB (Learning)

Testing: Jest (unit testing), TDD practices, browser dev tools

Version Control: Git, GitHub

Deployment: GitHub Pages, Netlify, Coolify

Tools: VS Code, Postman, Linux CLI, Figma

Projects

Quote Generator | [GitHub](#)

Simple but elegant app fetching and displaying quotes from a public API.

Stacks: HTML, CSS, JavaScript, Node.js, Express

- Utilized async/await, fetch API, and responsive styling
- Built with accessibility in mind, deployed via Netlify

Spaced Repetition Study Tool | [GitHub](#) - [Live Demo](#)

Memory-boosting app inspired by Anki using spaced repetition algorithms.

Stacks: HTML, CSS, JavaScript, Babel, Jest, LocalStorage

- Built in collaboration during the CodeYourFuture group project week
- Managed learning state in localStorage, with progress tracking

Spell Checker Web App | [GitHub](#) - [Live Demo](#)

A responsive web app that checks spelling against a Basic English dictionary.

Stacks: HTML, CSS, JavaScript, Babel, Jest, LocalStorage

- Highlights incorrect words, allows user dictionary extension, and handles punctuation
- Includes Jest unit tests and scores 100 in Lighthouse accessibility

The Days Calendar | [GitHub](#) - [Live Demo](#)

A full-featured calendar app with persistent themes and animated UI.

Stacks: HTML, CSS, JavaScript, Babel, Jest, LocalStorage

- Built with vanilla JS, HTML, and CSS; deployed via GitHub Pages
- Features dark/light mode toggle, event highlighting, and localStorage persistence

Experience

Freelance Web Developer *Remote / Self-Employed* | 2023 – Present

- Delivered client-facing apps with responsive, accessible UIs and user-friendly interfaces.
- Managed frontend/backend stacks, testing pipelines, and CI/CD deployments

Trainee Software Developer – CodeYourFuture *Remote* | Sep 2024 – Present

- Participating in an intensive full-stack web development programme
- Gained hands-on experience with JavaScript, Node.js, Express, Git, and REST APIs
- Collaborated in Agile teams, wrote clean code, and reviewed peers' work
- Practised test-driven development, problem solving, and mentoring new students

Previous Experience

Chef (formerly Housekeeper) – Keppels Head Hotel | Apr 2023 – Present

- Promoted due to strong initiative and adaptability
- Optimized kitchen prep process, cutting waste by 20% and improving nightly turnaround.

Tech Retail Business Owner | 2019 – 2023

- Managed operations and customer service in a computer hardware shop
- Advised clients and delivered personalized technical solutions

Senior Architect – SISI Company | 2016 – 2023

- Led architectural teams, coordinated digital and construction workflows
- Applied software tools like AutoCAD and Revit in complex projects

Optical Fiber Maintenance Technician | 2015 – 2016

- Maintained optical fiber infrastructure by performing routine inspections and repairs, ensuring operational reliability and minimizing downtime

- Executed technical maintenance tasks to support critical communication systems, contributing to uninterrupted service and system stability.

Education

BSc in Architecture - Azad University

- Achieved 2.1 | Focus: Digital architecture workflows, AutoCAD & Revit

Personal Interests

- Open-source contribution and technical writing
- Software development and programming
- Creative problem-solving and innovation
- Ongoing learning in AWS, DevOps, and backend development
- Community teaching & collaborative development
